MENT TO EXON MORE?

THE TRAVELERS All forms of personal codes

That is the story of an arrival Canadian family instead by The Youndon: to achigned by property different names and a bigons have been used.

"IT TAKES MORE THAN BRAINS TO GO TO UNIVERSITY!" save Charles Van Houten, It takes money. And when his two young sons reach university age, the money will be there. As part of the Canadian Family Security plan their Travelers agent helped them work out. Charles and Helene have provided for an education fund. And they have replaced many of their anxieties with a new found confidence not only about their future security, but about such present values as their health, their home, their possessions.

Now...with Polysar... lifetime sealing—and colour too

Drive your new car one year . . . two years ten years ! However long you drive it— and however severe the weather—the windshield and windows stay permanently sealed with Polysar rubber, which lasts as long as the car itself! Now, too, with Polysar Bust rubber, the interior colour scheme can be carried right through to the visible window scaling, because Polysar Butyl can be coloured!

Smart, lifetime automotive window scaling, that can be coloured to suit the plans of style-minded car designers, is another outstanding example of the revolution created by chemical rubber. Now—working with the controlled elements of Polysar—chemists can formulate rubbers to fit the specific requirements of each particular job.

In an ever-growing number of applications, Polysar chemical rubber is being used, alone or in part, to give you longer wear, increased efficiency and more value for your dollar. All of these benefits are yours because there's been a resolution in rubber.

Polymer Corporation Limited . Sarnia, Canada

ALMOST HALF OF ALL NEW RUBBER USED IN CANADA TODAY IS POLYSAR
